We are all individuals with individual issues. The value of an attorney doing your Trust is that the attorney has experience dealing with those issues and can explain them to you.

Trusts are individual and usually indicated only if you own a house, land, or property in more than one state or country. (or if you have an interesting marital history)

****My basic trust package starts at \$750 (non discounted) for a single individual and \$950 (non discounted) for a married couple. These are not the 6 page on line trust. They are complete and up to date with the laws and court decisions. Usually you can plan to spend 1 1/2 hours with me so I can understand your particular situation explain the operation of a trust, and answer your questions.**
